S4A Balance
Planning & Scheduling

Your ultimate SAP® planning and scheduling solution

Tired of juggling multiple tasks,
struggling with conflicting schedules,
and feeling overwhelmed by the chaos
of unscheduled work?

S4A Balance is here to bring equilibrium
to your planning and scheduling
processes.

Seamless syncing to
your SAP® data.

Feature-rich and user-friendly

Automate and simplify your
project planning

Create Plans & Assign Resources

Easily craft comprehensive work plans and
effortlessly assign resources.

Template-Based Planning

With default resource and team
assignments, kickstart your projects with a
solid foundation for repeatable success.

Automatic Resource Assignment

Our software automatically assigns
resources to work items based on
availability, ensuring optimal utilization of
your workforce.

Resource Management & Availability

With real-time insights, you can make
informed decisions and ensure that your
workforce is utilized to its full potential.

Simplified Scheduling

Modify planned dates and hours with ease,
maintaining flexibility in response to
evolving project requirements.

Built-in KPI's

Comes equipped with built-in Key
Performance Indicators (KPIs) that
provide real-time insights into the
execution of your maintenance plan.

**Empower your team to
create, manage, and
automate work plans
seamlessly.**

Accenture Blueworx Ready
S4A Balance integrates directly with
Blueworx allowing you to see your
plan executed in real-time.
